## CAREER OBJECTIVE

Aspiring full-stack web developer with a strong foundation in HTML, CSS, and JavaScript, currently building real-world projects to sharpen my skills. Eager to apply my learning in a dynamic internship where I can grow and contribute meaningfully to web development projects.

## EDUCATION

**B.Tech, Electronics and Communication** 2023 - 2027  
Narula Institute of Technology

**Senior Secondary (XII), ICSE** 2023  
Science

Douglas Memorial Higher Secondary School

Percentage: 85.00%

**Secondary (X), ICSE** 2021  
Douglas Memorial Higher Secondary School

Percentage: 90.00%

## TRAININGS / CERTIFICATIONS

### Full Stack Web Development

Jun 2025 - Present

FreeCodeCamp, Virtual

Web Development (Self-Learning)

Platform: YouTube (GreatStack, etc.) — Ongoing

- Learning HTML, CSS, and JavaScript through hands-on projects.
- Built real-world UI components like login/register forms and video layouts.

Responsive Web Design (In Progress)

Platform: freeCodeCamp

- Covers layout design, Flexbox, Grid, and accessibility.
- Currently practicing CSS structuring and layout techniques.

JavaScript Basics

Platform: freeCodeCamp / GreatStack — Completed / In Progress

- Covers variables, functions, DOM manipulation, and interactive logic.
- Applied concepts in personal projects (form toggling, basic animations).

## PORTFOLIO

[GitHub link ↗](#)

[Portfolio link ↗](#)

## PROJECTS

### [Animated Login/Register Form ↗](#)

Jul 2025

Tech Stack: HTML, CSS, JavaScript

- Built a responsive login and registration form with animated transitions.
- Implemented toggle panel using JavaScript for smooth UI interaction.
- Designed with clean layout, modern styling, and form validation structure.

### [Personal Portfolio Website ↗](#)

Jun 2025 - Jul 2025

Tech Stack: HTML, CSS, JavaScript

- Designed and developed a personal portfolio showcasing skills, projects, and contact information.
- Implemented smooth navigation, responsive layout, and aesthetic UI design.
- Used semantic HTML and modular CSS to ensure clean structure and maintainability.

## [YouTube-style Video Grid Layout ↗](#)

Jul 2025

Tech Stack: HTML, CSS

- Created a fixed 3-column video grid layout inspired by YouTube's homepage.
- Used Flexbox and Grid to align video cards and maintain uniform spacing.
- Focused on layout structure, component design, and visual presentation.
- Project currently optimized for desktop screens only (media queries not yet applied).
